Subject: Re: Savage Coal Terminal Water Monitoring Data

Dan,

I have uploaded all of the information for Savage Coal Terminal from the pipeline into the database.

As a reminder, according to parameters set by the assigned hydrologist, you are still missing the following samples:

CV-14-W Quarterly sample
CV-15-W April and June samples

I added Pond 5, it is site number 14.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.

The following samples have been oked to be uploaded:

CV-1W 06/30/2006
CV-1W 08/18/2006

A new water monitoring point has been added and needs to be put into the system. I have data for sampling from 08/18/2006 ready to be input when possible. The new site is titled Pond 5.
